The Beyond the Pizza Night model teaches simple strategies that can be carried out in every day environments. It demonstrates how to support primary caregivers to respond to both the child's feelings and their communication in a way that nurtures healthy development in both. The training model supports adults in learning these practical strategies through a fun, yet effective format that includes sharing information, practicing techniques and supporting each other's learning.

What will these two days cover?

Day One: FOR FIRST TIME ATTENDEES OR those wanting to review PACT/ parent party concepts

- Learn the concepts of a language-based, relationship-building curriculum (adapted PACT)
- Explore language, literacy and attachment-building strategies through books, play, art & music
- Learn the ingredients for a family outreach event that people look forward to attending!

Before Day Two: Hold at least one family involvement event.

Day Two: FOR ANYONE who has previously attended PACT/Beyond Pizza Night training (including Day One participants)

- Strategies for delivering content to families with a range of knowledge base and skill level:
 - a. Using the environment as teacher
 - b. Concise, engaging and effective adult discussions - intentional, but unobtrusive facilitation
 - c. The flip camera as teacher
- Participant sharing: What's working? Lessons learned? Ongoing networking?
