**General posting notes:**

- 1) \*Because this board has been spammed excessively (even with email verification) we are now only allowing admin to add new members. That is why you have to request registration.
- 2) **Usernames, passwords** and verification codes are "Case Sensitive", which means that they **must be reproduced at log-in in the same "case" (capital or lower case letters) as submitted in your initial registration request**. For example, an initial request to register with the user name "sam walker" won't be accepted at log-in as "Sam Walker".
- 3) To start a topic that is not listed yet, click any of main topics and that will bring you to a board that has a **“Start a New Topic”** button to click.
